

"I must work the works of him that sent me, while it is day:
the night cometh, when no man can work." John 9:4

Dear Pastors,

May-June

I want to thank you pastors for being kind to me, for allowing me into your church family, for answering prayers, and for being a blessing in every shape and form. I am so glad that there are brothers and sisters who love one another and care for one another, as Christ loved us.

Off to an exciting start

I had been looking forward to starting deputation ever since I was called to the amazing country of the Dominican Republic back in May of 2012. On April 27, by God's grace I graduated from Bible College and did not hesitate to begin my journey of faith. As soon as my graduation was over on that Saturday night, I drove up to Medina, New York to be at my first mission's conference while on deputation. I arrived safely and the church was experiencing revival during the conference. I had the opportunity to visit with the pastor and saw a young lady who had left church come back to church and get on fire for God.

Trying of my faith

While I was in a church in Medina, New York, my car broke down as I was getting ready to go to a near town. The mechanic said that it could be the distributor or the computer that is not generating power to the spark plugs. After hearing that I began to wonder, how much will it cost? How will I travel to my next meeting? Will I have enough money to repair the car? I said thinking, "I just started deputation, and I am already having problems with my car?" Even in the midst of doubt, anxiety, and worry, God came through and provided for all my needs. My car was fixed a few days after the mission's conference was over and I was on my way to Maryland. I am so glad that I serve a God that takes care of his children.

More Car Problems

While driving back to Maryland on the same week, my car began to have more issues. Three of my power window regulators went out so I only had one power window operating. At the same time, my A/C stopped operating. On top of those two problems with the vehicle, my car was overheating and was leaking much of the coolant. I got it fixed once I got to Maryland, and again with very little funds, God still provided for all my needs according to his riches in glory...

Prayer request

- Safety on the road
- A better vehicle
- Need meetings
- Support to come in
